

## funding

- Progress Programme 2007-2013
- Innovative Projects supporting labour mobility in the EU

## idea

The development of ICT offers new ways and styles of interaction to open new dimensions of participation for young people in the European labour market

The PES system should be involved in this change to create and promote efficient tools and cooperative networks at local and European level

## objectives

- developing and testing career guidance actions and tools
- using ICT and new possibilities offered by the Web 2.0
- directed to employment and career guidance services for young customers
- to facilitate access to labour market and mobility opportunities
